# DISCOVER HURTIGRUTEN'S DISTINCTIVE STYLE

For travellers who seek to experience the rhythm of local life wherever they travel, Hurtigruten is the perfect vehicle to get you deeper and closer into the heart of the real Norway and remote destinations above the Arctic Circle and below the Antarctic Circle.

With ships that have been a vital link since 1893 between the remote and not so remote hamlets, islands, towns and cities along Norway's jagged coastline, Hurtigruten is hands down the very best way to experience the authenticity of Norway's people, culture, history, unsurpassed spectacular landscapes and fascinating wildlife. For over 100 years essential goods and services have been delivered to these communities by Hurtigruten, and for some, inaccessible by road, their only connection to the outside world.

In other parts of the world, Hurtigruten offers incredible expedition voyages aboard their purpose-built expedition vessel MS Fram, with adventures to the very ends of our planet in the Arctic and Antarctica, plus seasonal voyages along Western Europe and the British Isles, all accompanied by an expert expedition team. A selection of these exceptional expeditions are found on pages 20-22.

Panorama Lounge – MS Trollfjord

Hurtigruten's rich maritime history and unequalled knowledge of this region ensures that you'll get so close to the real Norway you'll feel as though you've become a part of each port you visit.

Hurtigruten also offers stimulating voyages to the remotest areas of world above the Arctic Circle and below the Antarctic Circle aboard their purpose built expedition ship MS Fram. When MS Fram sails between the two Poles, special expedition voyages around the British Isles, Western Europe and across the Atlantic Ocean are available. See pages 20-22 for a sampling of these voyages.

## Life onboard Hurtigruten – a unique experience!

From the moment you step aboard, you'll recognise that there's a sense of adventure from everyone around you. There's a decidedly informal, rather casual atmosphere onboard, so no need to bring those jackets and ties and you're in the company of like-minded people whose main focus is the destination. When you sail with Hurtigruten you'll take note immediately that you've not travelled this far for the onboard entertainment you'd expect on a conventional cruise, but rather for the spectacular visual feast that

## Hurtigruten ships – Welcome Aboard

Whether you're looking for a traditional seagoing ship or an ultra-modern ship, Hurtigruten can accommodate. Hurtigruten ships vary depending on their size and age. You can cruise on 21st century ships, boasting all the mod-cons with two-storey panoramic lounges, or elect to step back in time aboard a traditional vessel built in 1964, a favoured choice among many travellers. Each ship differs in design and interior style, but they all provide the same intimate up-close travel experience, with their own informal Hurtigruten atmosphere.

Boasting a total of 11 ships sailing the Norwegian coastal treasures on a year round basis means that no matter what time of year you're planning to travel to Norway, Hurtigruten has a departure that perfectly suits your travel plans. Voyages begin either in Bergen in Norway's fjordland, or Kirkenes located high above the Arctic Circle atop Europe near the Russian border, both of which are easily accessible by air and/or scenic railway. No matter whether you choose to take a 6, 7, 11 or full 12 day round-trip voyage, you'll visit no less than 34 fascinating ports of call, which is surely one of the world's most destination focused voyages.

The Suite Life

is continually appearing outside all around you as you gently glide through some of the world's most beautiful and untouched scenery.

Onboard the comfortable ships you'll find inviting lounges, including Hurtigruten's signature panorama lounge designed to showcase Norway's awesome scenery, 24-hour cafe, bars, shop, internet access and ample deck space from which to admire Norway's natural beauty. In between the scenic wonders you're invited to dine in the ship's restaurant where your taste buds can anticipate mouth-watering cuisine, prepared by innovative Norwegian chefs, of which all the produce is sourced fresh and locally.

Specifically designed for optimum guest comfort and ability to take you closer to Norway's breathtaking coastline, Hurtigruten ships are also working ships and for many passengers it is the experience of seeing just how this essential service operates and being a part of this community 'lifeline' that really appeals. Most of your fellow passengers are onboard for the whole journey, but you'll also rub shoulders with warm and friendly locals who use the ships for short journeys. Hurtigruten also takes its role in Norway seriously by partnering with the National Geographic Centre of Sustainable Destinations and practices Geotourism.

## Your home on water – cabins & suites

Like Hurtigruten's ships, you'll find a wide range of comfortable cabins onboard. They vary in size and location, sometimes within the same cabin grade. As a general rule, outside cabins on the higher decks have a picture window while the ones on the lower decks have portholes. There are also inside (no window) cabins available. Accommodation onboard ranges from suites with seating area and private balcony, to standard outside and inside cabins. Due to Hurtigruten's varying range of cabins and ships, we highly recommend you contact our Discover the World Cruising team or your travel agent to ensure you select the cabin type that is right for you, or visit [www.discovertheworldcruising.com.au](http://www.discovertheworldcruising.com.au) for deck plans.

## Discover the World Cruising – Tailor make your Scandinavian SeaTour

Please see page 7 for details on how to build your holiday with a choice of hotels, tours, scenic train journeys and more.

## NORWAY – A LAND OF CONTRASTS

From Scandinavian sleek Oslo to the chiselled fjords that soar into the heavens, Norway has justly earned a reputation as one of the world's most beautiful countries. This is a country that will leave a dramatic impression, with geographical and natural marvels stretching across its unique landscape above and below the Arctic Circle that never fail to take your breath away!

Emerald green fjords with cascading waterfalls carved by glaciers during the last Ice Age are undoubtedly Norway's top attractions, and the finest way to experience these natural geographical wonders is by combining a Hurtigruten voyage with the special optional hotel and land extensions to create your own Tailormade SeaTour.

### Four Seasons – Four Reasons to experience Norway any time of the year

It would be fair to say that Norway has encapsulating seasonal split personalities.

**Spring** – Norway's Arctic Awakening where you might experience three seasons in just one week. The days lengthen and the sun rejuvenates all life along the coast. Sugar-white snow still covers much of the north, but in the south it's an explosion of green and colourful blooms, with wildlife and millions of birds returning to breed.

**Summer** – Sees the days become ever longer and at the summer solstice 24-hours daylight is experienced above the Arctic Circle under the midnight sun. At its height some would say the spectacular, towering fjords, waterfalls and cultural life are at their peak. But wait, we've still got autumn and winter to come!

**Autumn** – Introduces you to a crisper air and the shores along Norway's incredible coastline seem to wrestle with the impending winter by loudly expressing itself in rich reds, oranges and yellows, which fill the mountainsides, hilltops and woods. As the days shorten the Northern Lights (Aurora Borealis) may appear in the night sky.

**Winter** – Is your time for adventure and Norway is an adventure capital. The days are shorter which gives Mother Nature more time for an impromptu dance of Northern Lights high above, and it's the time of year when you can take the reins of a dog sled team and head out into the wilderness or drive your first snowmobile after catching King Crab for dinner in a Viking chief's house. Norway becomes a white, winter wonderland...why not spend Christmas or New Year's here?

North Cape – Reindeer

Kristiansund, Top of Fjord Norway and gateway to the Atlantic Road

**Wildlife often makes an appearance** in Norway where you may spot otters, badgers, moose, reindeer, and mighty humpback and sperm whales. Look towards the sky and be dazzled by hundreds of bird species including the soaring Sea Eagle. In May every year, millions of migrating birds return to the Arctic coast for breeding and nesting, at which time you're likely to see puffins, kittiwakes, guillemots, razorbills, cormorants, Arctic Skuas and Northern Gannets.

**Modern and historic cities, towns and settlements** each vie for your attention up and down the coast. From the beautiful city of Bergen, with its medieval streets and German Hanseatic heritage (once the capital of Norway) to traditional Sami settlements that are home to generations of families and their reindeer, you will be immersed into Norway's culture and become friends with warm locals. Whether you're seeking to learn more about the legendary fiery Vikings or the great Norwegian explorers, sample the array of museums and galleries, visit Europe's largest salt water aquarium, mush your own dog sled team, shout "I'm King of the World" high above Europe's northernmost point, or hear a classical concert in an Arctic Cathedral, Norway is sure to leave you transported.

# TAILORMAKE YOUR HOLIDAY... SPECTACULAR TRAIN JOURNEYS

## Spectacular Train Journeys

Norway's impressive landscape is the perfect accompaniment to a stunningly scenic train ride. So rugged and untamed is Norway, that to travel across its 3,000 kilometres of tracks you'd need to pass through 775 tunnels and over 3,000 bridges. Norwegian trains can take you to dizzying heights through mountains towering over crystal-clear fjords below, from one major city to another, or give you the opportunity to stop in an area seemingly untouched by the hand of man. Norwegian trains offer second class and komfort class (separate car with more space, tea and coffee) and sleeper compartments. Below are just a few examples of the most popular rail journeys.

### BERGEN RAILWAY

#### OSLO TO BERGEN (OR VICE-VERSA)

(approx. 7 hours)

Norway's most famous rail journey is also one of its most beautiful. Regarded as one of the world's 'must do' scenically striking train trips, this is our top choice!

Second Class from \$192 per person  
Komfort Class from \$219 per person

**We suggest:** Break your Bergen Railway journey and ride one of the world's steepest railways, the Flâm Mountain Railway (see Norway in a Nutshell tour on page 13 for details).

### DOVRE RAILWAY

#### TRONDHEIM TO OSLO (OR VICE-VERSA)

(approx. 7 hours)

Following the Gaula River, seasonally teaming with salmon, you'll pass Oppdal's beautiful mountain slopes and slip into Dovrefjell, with its musk oxen, myths and trolls.

Second Class from \$209 per person  
Komfort Class from \$235 per person

**We suggest:** We suggest: Take a detour along the Rauma Railway. In just under 2 hours travel through fjords and mountains, across 32 bridges and into 6 tunnels (seasonal).

### NORDLAND RAILWAY

#### BODØ TO TRONDHEIM (OR VICE-VERSA)

(approx. 7 hours)

Webbing its way southward, pass over the Arctic Circle and see spectacular scenery. In summer experience 24-hour daylight for an endless visual feast.

Second Class from \$249 per person  
Komfort Class from \$275 per person
